To Whom It May Concern:

Google is pleased to inform you that Suraj Dadral has successfully completed Google Summer of Code 2019, a program which connects students with mentors for 3 months to develop open source software. Each year many students apply to participate with only a portion of them being accepted into the program, and not every student finishes the program successfully.

Suraj was accepted into the program by, and developed open source software for, BRL-CAD beginning May 27, 2019 and ending on August 19, 2019. Over that period, they passed each of the three evaluations conducted by their mentor.

More information on Suraj's project can be found at:

<https://summerofcode.withgoogle.com/projects/4615685316018176>

Suraj worked from home on their project and was not required to visit either Google or BRL-CAD's offices. They received a stipend of 3000 USD for the project. Although Suraj was not directly employed by Google during Google Summer of Code 2019, the program was administered by Google from our corporate headquarters and Google acted as the host organization for the duration of Suraj's participation.

You can learn more about the program on our website at [g.co/gsoc](https://g.co/gsoc). Should you require any further information, please do not hesitate to contact our team via email at [gsoc-support@google.com](mailto:gsoc-support@google.com).

Best,

Tony Urso  
Google Summer of Code Program Manager
